Experience

Elanco

Jul 2020 – Jul 2021

Full-Stack Software Engineer

- Work as part of Agile Full-Stack team following scrum, participate in 2-week sprints, reviews and retrospectives.

- Develop a developer portal which facilitates documentation via Headless CMS, Next.js and MDX. Facilitate requirements with Lead Architects and C-Level members of staff.
 - Develop part of internal React component library in TypeScript that serves 100+ websites, test with Jest and Enzyme and document with Storybook.
 - Work with student programme leads to design, develop and deploy website built with Gatsby. Website is responsible for advertising the Elanco student programme for years 2021-2022
 - Build GitHub scraper with sponsorship from Senior Director to identify members of GitHub organisation with Admin-level access to repositories that could serve to be a potential internal-threat.
 - Rapidly iterate on small proof-of-concepts to show value and use-cases before scaling. For example: An Azure Function to generate a name for a pet, based on pet characteristics provided by a CMS.
 - Develop stateful and serverless applications hosted on Azure with Next.js, Gatsby, Azure Functions and TypeScript.
 - Build internal “Web Toolkit” package and split the same to a monorepo containing 3 packages on internal npm registry. Implement best development standards and migrated to new architecture.
-

Sysnet Associates India Private Limited, Bangalore, India

Jan 2019 - Dec 2019

Marketing Executive

- Promote brand awareness through SEO and attractive web design.
 - Produce engaging online marketing campaigns
 - Spearhead creation of blogs and social media content for Facebook, Twitter and Google
 - Work within ad budget to run social media campaigns
 - Manage 15 new product and content releases
 - Manage, mentor, and develop a team of 3 interns.
 - Analyse the performance of all marketing programs to identify best opportunities for optimisation.
 - Increase sales from 1-2 to 20 per day over the course of 1 year.
-

Sysnet Associates India Private Limited, Bangalore, India

Jun 2018 - Aug 2018

Software Development Intern

- Perform Requirements engineering.
- Effective communication between customers and developers to ensure proper understanding of requirements.
